Full Stack Developer | MERN Stack Developer | PHP Developer

SUMMARY

Full Stack Developer specializing in MERN and PHP with 8+ years Exp, senior-level expertise delivering scalable web solutions. Led development of a high-traffic e-learning platform, improving load performance by 30% and integrating robust ticket-management features. Built dynamic client-focused applications for international customers, ensuring timely delivery and high satisfaction. Seeking to leverage full-stack expertise to drive innovative product development and business growth.

WORK EXPERIENCE

Intencode India Pvt. Ltd.

Oct 2022 - Oct 2025

Full Stack Developer (MERN)

Hyderabad

- Contributed to developing and optimizing core e-learning platform features with React and Node.js, resulting in faster page loads and higher user engagement
- Led the deployment of new features and conducted rigorous testing to maintain high standards of quality and reliability.
- Maintained version control using GitHub, facilitating smooth collaboration and code integration.
- Worked with foreign clients to understand their requirements and build applications tailored to their needs.
- Developed applications using Node.js and Express.js managed MySQL databases to ensure effective data management and storage.
- Participated in testing, debugging, and deployment activities to ensure reliable application delivery.

CodeKindle Solutions Pvt. Ltd.

Aug 2020 - Sep 2022

Full Stack Developer

Hyderabad

- Developed web applications with PHP, HTML, MySQL, JavaScript, Bootstrap, and CSS, handling server-side logic and database interactions, which enabled the team to launch new features on schedule
- Collaborated with senior developers to learn best practices and improve coding standards, contributing to team projects and code reviews.
- Worked on database management using MySQL, creating and optimizing queries to ensure efficient data handling and storage.
- Optimized database structures and SQL queries for improved performance.
- Assisted in deployment, bug fixing, and production support activities.

Shaztech Pvt. Ltd.

Feb 2017 - Jul 2020

Technical Support Engineer

Hyderabad

- Escalated complex issues to the development team by creating detailed tickets, ensuring that developers had all necessary information to address the problems.
- Diagnosed technical issues using Python scripts and log analysis, identified root causes, and delivered timely solutions or workarounds to users, reducing repeat tickets and improving user satisfaction
- Investigated root causes of system issues and provided timely resolutions.
- Supported end users and managed ticket resolution processes.
- Worked closely with development teams to improve application stability.

SKILLS

- **Technical:** React.js, JavaScript, HTML, CSS, Bootstrap, Python, Node.js, PHP, CodeIgniter, MySQL, Git, Github, REST APIs
- **Non-Technical:** Problem-solving, Communication, Team Work, Adaptability, Creativity, Time Management
